Subject: Support for MLPA Proposal 3
Hello,

This email voices my support for proposal 3. I am a surfer, scuba diver and underwater hunter and feel that we need to support proposal 3, as it's scientifically proven to be the most effective solution for protecting our ocean resources. I feel this is important in order to make more people aware of the wonders in our ocean, the starting point for many other positive changes.

Thanks for your hard work.

Best,

Brent Durand
